Reg.ID : 7172
Patient Name : MR. RAVI KUMAR PESALA
Age : 23 years (Male)
Referral : SELF
Source : DIRECT
Report ID : 4887

Reg. Date : Apr 26, 2021, 06:34 p.m.
Sample Date : Apr 26, 2021, 06:44 p.m.
Report Date : Apr 26, 2021, 10:32 p.m.
Print Date : Apr 27, 2021, 05:10 p.m.
Sample ID :

Test Name	Value(s)	Unit	Reference Range
-----------	----------	------	-----------------

MOLECULAR BIOLOGY

SARS-COV-2(COVID 19) Detection (RT-PCR) : NOT DETECTED
Sample Type : Nasopharyngeal Swab / Oropharyngeal Swab

INTERPRETATION

DETECTED - Indicates the Presence of SARS-COV-2(COVID 19) In the given Sample.

NOT DETECTED - Indicates the Absence of SARS-COV-2(COVID 19) In the given Sample.

- 1.ICMR Registration Approval number : RADLPNCTN.
- 2.A negative result does not rule out the possibility of Covid-19 infection. The presence of inhibitors, mutations & insufficient RNA specific to SARS-CoV-2 can influence the test result. Kindly correlate the results with clinical findings. A negative result in a single upper respiratory tract sample does not rule out SARS-CoV-2 infection. Hence in such cases, a repeat sample should be sent. Lower respiratory tract samples like Sputum, BAL, ET aspirate are appropriate samples, especially in severe and progressive lung disease.
3. Covid-19 Test conducted as per kits approved by ICMR / CE-IVD / USFDA.
4. Kindly consult referring Physician / Authorized hospitals for appropriate follow up.
5. Test conducted on Nasopharyngeal & Oropharyngeal Swabs

Comments

Coronaviruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome (MERS-CoV) and Severe Acute Respiratory Syndrome (SARS-CoV). Coronavirus disease (COVID-19) is a new strain that was discovered in 2019 and has not been previously identified in humans. Common signs of infection include respiratory symptoms, fever, cough, shortness of breath, and breathing difficulties. In more severe cases, the infection can cause pneumonia, severe acute respiratory syndrome, and kidney failure.
